

# PHILLIP CHOI

13370 Savanna Tustin, CA 92782 · (562) 221-7766

webdevpchoi@gmail.com · [www.phillipchoi.me](http://www.phillipchoi.me)

A full-stack web developer with focus on front-end and user experience, seeking a Jr. Web Developer position with the opportunity to grow. Proficient in JavaScript, HTML/CSS, responsive web design, and more. Hard-working individual with the ability to communicate and work effectively as part of a team or stay motivated as an individual.

## EXPERIENCE

06/2017 – Present

### Web Developer, Freelance

- *Designed and built a movie review web application using React, Vanilla JavaScript, and API calls.*
- *Modernized client's outdated website using CSS Grid, Flexbox, Transitions, Animations, and more.*
- *Developed an informational static site using wireframing, HTML5/CSS3, JavaScript, and deployed on GitHub Pages, providing client time and room for expansion.*
- *Created a dynamic site to connect photographers and models utilizing a database using Node.js, MongoDB, mLab, and deployed on Heroku.*
- *Implemented a more efficient and secure workflow by separating a client's code into development and production environments.*

09/2015 – Present

### IT Technician, ProTecthion IT

- *Provided onsite and remote technical support for over 15 mid-sized medical clinics.*
- *Configured, cloned, and installed several hundred workstations.*
- *Experienced with email security and server backups using Mimecast, SonicWall, and Barracuda.*
- *Worked with Active Directory & Microsoft Exchange servers for the creation and troubleshooting of user profiles, permissions, and mailboxes.*

07/2013 – 09/2015

### Content Writer, Pylon Media Group Inc.

- *Strategized and developed the most efficient method to streamline and advertise clientele business.*
- *Increased traffic to client's website and business by 12% by researching and capitalizing their strengths.*
- *Responsible for coordinating responsive communications amongst team and clientele.*
